

Topical Collection

Sphingolipid Signaling in Health and Disease

Message from the Collection Editor

This Topical Collection is dedicated to shedding light on the molecular mechanisms used by bioactive sphingolipids, including sphingosine, ceramides, glycosphingolipids, and phosphorylated sphingoids, and to better characterize their involvement in physiological, pathophysiological, and pathological conditions. Furthermore, advances in the development of new drugs and strategies to manipulate sphingolipid-regulating enzymes and receptors for therapeutic applications are welcome.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
