Strategies Targeting Microbiota Modulation

Message from the Guest Editor

In recent years, an increasing body of evidence has shown the major role played in human and animal health and disease by the microbial communities associated to them. Furthermore, it has been shown that alterations of these communities can have dramatic effects on the health status of hosts or disease outcomes. A number of strategies have been devised to modulate symbiotic microbial communities that have shown promising results as a means to promote the host health status, diminish damage associated to exposure to toxic compounds or to remove colonizing pathogens. The aim of this Special Issue is to collect original research articles or review articles that discuss different strategies aiming to modulate host-associated microbial communities with particular emphasis on their molecular mechanisms of action.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
