

## Special Issue

# Tumor Microenvironment: Interactions and Therapeutic Response

### Message from the Guest Editors

In this Special Issue “Tumor Microenvironment: Interactions and Therapeutic Response”, we will discuss the nature of the crosstalk between tumor cells and their microenvironment. We will explore the implications of these interactions for the improvement of therapeutics through simultaneous targeting of tumor cells and multiple components of the tumor microenvironment to efficiently exploit anticancer strategies and overcome drug resistance.

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
