

## Special Issue

# The Ubiquitination Machinery: Its Versatile Role in Normal and Disease-Related Cellular Processes

### Message from the Guest Editors

Several decades of research pinned down many components, substrates, and regulatory pathways of the highly complex ubiquitination machinery. Various disruptions of this system are implicated in the genesis of many human diseases, such as neurodegeneration, inflammation, or cancer. Therefore, a better understanding of the ubiquitination system is crucial for developing therapeutic or preventative measures against these diseases.

In this Special Issue of the International Journal of Molecular Sciences, we would like to invite contributions addressing the functional analysis of ubiquitination machinery components or identifying new substrates or regulatory circuits, with an emphasis on pathological implications or therapeutic prospects. Submissions can either be original research papers or reviews. Your contributions will be highly appreciated.

---

### Guest Editors

Dr. Peter Deak  
Dr. Yuu Yuu Kimata  
Dr. Levente Kovács

## About the Journal

### Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Editor-in-Chief

Prof. Dr. José L. Quiles  
Department of Physiology, Institute of Nutrition and Food Technology  
"Jose Mataix", Biomedical Research Center, University of Granada,  
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
