

Special Issue

Feature Papers in Topology and Its Applications

Message from the Guest Editor

As the Editor-in-Chief of the *International Journal of Topology*, I am glad to propose the Special Issue “Feature Papers in Topology and Its Applications”, which is intended to be a collection of high-quality papers (original research articles or comprehensive reviews) addressing the subject of topology, either the general concepts and open conjectures or the applications to other fields of knowledge. We welcome the submission of manuscripts from Editorial Board Members and outstanding scholars invited by the Editorial Board and the Editorial Office. You are welcome to send short proposals for submissions of Feature Papers to our Editorial Office (ijt@mdpi.com) for evaluation. We expect that this inaugural issue will pave the way for the success of the new journal.

Guest Editor

Dr. Michel Planat
