submissions:

closed (30 March 2019)

Message from the Guest Editors

Dear Colleagues,

This Special Issue will include selected papers from the 22nd International Conference on System Theory, Control and Computing (ICSTCC 2018) to be held in Sinaia, Romania, 10–12 October 2018.

The International Conference on System Theory, Control and Computing—ICSTCC 2018—aims at bringing together, in a unique forum, scientists from academia and industry to discuss the state-of-the-art and the new trends in system theory, control and computer engineering, and at promoting professional interactions and fellowships.

The papers considered for ICSTCC 2018 cover the general areas of automation and robotics, computer science and engineering, and electronics and instrumentation.

The authors of selected papers from ICSTCC 2018 will be invited to submit extended and enhanced versions of their papers to this Special Issue.

Prof. Dr. Marian Barbu

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [ESCI \(Web of Science\)](#), [Ei Compendex](#), [dblp](#), and [other databases](#).

Journal Rank: JCR - Q2 (Computer Science, Information Systems) / CiteScore - Q2 (Information Systems)
