Information Vagueness

Guest Editors:

Dr. Cesar Gonzalez-Perez

Institute of Heritage Sciences
(Incipit), Spanish National
Research Council (CSIC), Avda.
Vigo, s/n, 15705 Santiago de
Compostela, Spain

Dr. Martin Pereira-Fariña

University of Santiago de
Compostela, Galicia, Spain

Dr. Leticia Tobalina-Pulido

1. Université de Pau et des Pays
de l'Adour, Pau, France;
2. Universidad de Navarra,
Pamplona, Spain

Deadline for manuscript
submissions:

closed (31 October 2021)

Message from the Guest Editors

This Special Issue of *Information Vagueness* attempts to further this field by focusing on how information vagueness affects current information technologies, how these technologies should be changed to cater for vague information, and how information vagueness may be used for research. Relevant areas of interest are theoretical approaches to vagueness (from philosophy, software engineering, social sciences, or humanities); methodologies for detecting, characterising, measuring, or processing vague data (in disciplines such as biology, archaeology, history, heritage management, or engineering); the connections between vagueness and other issues such as quality or usability; technologies for implementing vague information (such as databases, fuzzy logic, probabilistic models, etc.); and approaches to studying the social and sociotechnical impacts of vagueness in information systems.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and
Software Engineering, University
of Wollongong, Northfields
Avenue, Wollongong, NSW 2522,
Australia

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [ESCI \(Web of Science\)](#), [Ei Compendex](#), [dblp](#), and [other databases](#).

Journal Rank: CiteScore - Q2 (*Information Systems*)
