Message from the Guest Editors

Special Issue "Meaningful Human Control and Autonomous Weapons Systems: Ethics, Design, and Responsible Innovation" has been OPEN!

This Special Issue aims to contribute to this ongoing discourse by exploring the issues central to the debate on the ban of autonomous weapon systems. Investigators in the field are invited to contribute their original, unpublished works. Both research and review papers are welcome. Topics of interest include but are not limited to:

- The philosophical foundations of meaningful human control;
- Governance of AWS by multiagent networks;
- Distributed accounts of moral responsibility;
- Ethical principles underlying the design of AWS;
- Design approaches for the implementation of ethical principles in AWS;
- Critical evaluation of the arguments for/against a ban of AWS;
- Reviews of AWS literature and articulation of directions for future research;
- Approach to AI control and value compliance.

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [ESCI \(Web of Science\)](#), [Ei Compindex](#), [dblp](#), and [other databases](#).
