Deadline for manuscript
submissions:

closed (30 November 2018)

Message from the Guest Editors

Dear Colleagues,

The overall objectives of **SeGAH** are the discussion and sharing of knowledge, experiences and scientific and technical results, related to state-of-the-art solutions, technologies and applications of serious games in health and healthcare, as well as the demonstration of advanced products and technologies for health. **SeGAH 2018** will be held in Vienna, Austria, from 16–18 May, 2018. We believe that this Special Issue provides a chance of reaching even broader audiences to the authors of **SeGAH 2018**, who are therefore invited to submit extended versions of their papers to the Special Issue “Serious Games and Applications for Health” of the journal *Information—Open Access Information Science Journal* (I-OAISJ). However, authors interested in extending their conference papers must be aware that the final submitted manuscript must provide a minimum of 50% new content and not exceed 30% copy/paste from the proceedings paper. Each manuscript will be blind reviewed by I-OAISJ academic editors.

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [ESCI \(Web of Science\)](#), [Ei Compindex](#), [dblp](#), and [other databases](#).

Journal Rank: [CiteScore - Q2](#) (*Information Systems*)
