

## Special Issue

# Signal Processing and Machine Learning, 2nd Edition

### Message from the Guest Editors

This Special Issue will include original research in signal processing, machine learning, and information processing. Potential topics include, but are not limited to, the following areas of study:

- Parametric estimation in signal and probability density function models of signal source
- Methods in speech recognition and text to speech synthesis
- Speaker identification
- Emotion recognition, sentiment analysis, and face recognition
- Conversational agents (chatbots)
- Natural language processing
- Adaptive signal processing
- Signal processing and learning representation
- Linear and nonlinear regression and data mining
- Machine learning
- Signal extraction and quality enhancement using filtering techniques
- Classification and quantization
- Estimation of statistical parameters in processing of signals
- Deep learning methods
- Quantization in neural networks
- Learning and quantization
- Methods of signal compression and learning
- Autoregressive processing
- Signals, time series, and prediction
- Signal processing and machine learning

### Guest Editors

Prof. Dr. Zoran H. Perić

Dr. Tomas Skovranek

Prof. Dr. Vlado Delić

Dr. Vladimir Despotovic

Dr. Stefan Panic

### Deadline for manuscript submissions

31 January 2026

01010  
01010  
01010

## About the Journal

### Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

*Information* is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

---

### Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

#### Journal Rank:

JCR - Q2 (Computer Science, Information Systems) /  
CiteScore - Q2 (Information Systems)
