

Special Issue

Software Applications Programming and Data Security

Message from the Guest Editors

This Special Issue addresses various aspects of the software development process, including its specific phases and activities. It also explores topics beyond process structure, such as automation, tool support, management, data analysis, and decision-making aids.

This Special Issue aims to showcase theoretical advancements and their practical applications.

- agile software development
- design patterns
- programming languages
- software engineering tools
- software testing
- application security and privacy
- software security
- data protection

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Information Systems) /
CiteScore - Q2 (Information Systems)
