Special Issue

Sensing and Wireless Communications

Message from the Guest Editor

The aim of this Special Issue is to seek original and unpublished research contributions, tutorials, and review papers that address a wide range of topics regarding Sensing and Wireless Communications (SAC), including new and advanced sensor TEs, sensing techniques, sensing applications, new and innovative wireless communication TEs, advanced communication techniques, emerging wireless communication applications, integrated SAC (ISAC) technology enablers, and ICS techniques and applications.

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo
School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:
free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:
indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:
CiteScore - Q2 (Information Systems)
