Special Issue

Information Technology for Smart Healthcare

Message from the Guest Editors

In this Special Issue, we solicit papers that explore various aspects of smart healthcare, including AI applications that enable more accurate diagnoses and personalized treatments, healthcare informatics with a focus on the utilization of big data analytics, machine learning algorithms, and data visualization. Another example is the use of wearable devices, IoT sensors, and mobile health applications to monitor vital signs and track chronic conditions. The Special Issue also welcomes papers that analyze and interpret healthcare data to inform clinical decision-making, population health management, and healthcare policy.

Guest Editors

Prof. Dr. Omar El-Gayar

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo
School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:
free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:
indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:
JCR - Q2 (Computer Science, Information Systems) / CiteScore - Q2 (Information Systems)
