AI and Data Analysis in Smart Cities

Message from the Guest Editors

The rapid urbanization and technological advancements of the 21st century have given rise to the concept of smart cities, where digital technologies are integrated to enhance the quality and performance of urban services. We invite original research articles, reviews, and case studies that explore, but are not limited to, the following topics:

- AI-driven urban planning and infrastructure development;
- Data analysis for smart transportation and mobility solutions;
- Machine learning applications in energy efficiency and management;
- Integration of IoT devices and sensor networks in urban settings;
- Predictive analytics for public safety and emergency response;
- AI in environmental monitoring and sustainable practices;
- Big data platforms and architectures for urban data management;
- Human-centric AI solutions for citizen engagement and services;
- Ethical considerations and data privacy in AI implementations;
- Case studies on AI-enabled smart city initiatives and projects.

Guest Editors

Prof. Dr. Bin Meng

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Information Systems) /
CiteScore - Q2 (Information Systems)
