

Special Issue

AI AND THE SINGULARITY: A FALLACY OR A GREAT OPPORTUNITY?

Message from the Guest Editors

We are putting together a Special Issue on the notion of the technological Singularity, the idea that computers will one day be smarter than their human creators. Articles that are both in favour of and against the Singularity are welcome, but the lead article by the Bob Logan and Adrianna Braga is quite critical of the notion. Here is the abstract of their paper, The Emperor of Strong AI Has no Clothes: Limits to Artificial Intelligence.

Guest Editors

Prof. Dr. Robert K. Logan

Department of Physics, University of Toronto, Toronto, ON M5S 1A7, Canada

Prof. Dr. Adriana Braga

Department of Social Communication, Pontifícia Universidade Católica do Rio de Janeiro (PUC-RJ), R. Marquês de São Vicente, 225—Gávea, Rio de Janeiro 22451-900, RJ, Brazil

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Information Systems) /
CiteScore - Q2 (Information Systems)
