

Special Issue

Activity Monitoring by Multiple Distributed Sensing

Message from the Guest Editors

This Special Issue will include selected papers from the 6th International Workshop on Activity Monitoring by Multiple Distributed Sensing (AMMDS 2018) to be held in Newcastle, UK, 6 September 2018, in conjunction with BMVC (British Machine Vision Conference). The focus of the workshop is on distributed computing issues in large-scale networked sensor systems (including algorithms and applications, systems design techniques and tools, and in network signal and information processing). Aim of this workshop is to bring together researchers from different communities (such as Computer Vision, networked embedded sensing, artificial intelligence and so on) which address the problem of interpretation of the information coming from multiple distributed sensing systems. The authors of selected papers from AMMDS 2018 will be invited to submit extended and enhanced versions of their papers to this Special Issue.

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Information Systems) /
CiteScore - Q2 (Information Systems)
