

Special Issue

Big Data Research, Development, and Applications--Big Data 2018

Message from the Guest Editor

The IEEE Big Data conference series started in 2013 and has established itself as the top tier research conference in big data. The 2018 IEEE International Conference on Big Data (IEEE Big Data 2018) continues the success of the previous IEEE Big Data conferences. It provides a leading forum for disseminating the latest results in big data research, development, and applications. Researchers presenting at Big Data 2018 are encouraged to submit an extended version of their work to this Special Issue of the journal *Information* with a minimum of 50% of new content and input. Prof. Dr. Xiaohua Tony Hu

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Information Systems) /
CiteScore - Q2 (Information Systems)
