

Special Issue

Mobile Communications and Networks

Message from the Guest Editor

This Special Issue will present the latest developments in mobile communications, aggregation networks and mobile backhaul networks, mobility, and security and privacy applied to mobile communications. Investigators are invited to contribute with original and unpublished works. Both research and review papers are welcome. Authors are invited to submit original work on (but not limited to) the following topics:

- New opportunities, challenges, and use-cases for mobile communication systems.
- New technologies to carry time-critical data and mission-critical applications.
- Self-Organizing Networks and Self-healing mechanisms.
- Time-sensitive networking solutions.
- Topology control and neighborhood discovery solutions.
- Simulation and modeling of mobile networks
- Mobile network security monitoring and telemetry
- Cross-layer security solutions
- Mobile communications in enhanced mobile broadband, massive IoT, and critical communications.

Luís Oliveira

Guest Editor

Dr. Luís M. L. Oliveira

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Information Systems) /
CiteScore - Q2 (Information Systems)
