

Special Issue

Artificial Intelligence for Signal, Image and Video Processing

Message from the Guest Editors

This Special Issue aims to explore cutting-edge developments in artificial intelligence as applied to the processing, analysis, and interpretation of signal, image, and video data. With the rapid evolution of deep learning, data-centric methods, and computational intelligence, AI continues to redefine how we approach complex tasks across a wide range of domains, including healthcare, security, multimedia, remote sensing, and autonomous systems.

Guest Editors

Dr. Seyed Sahand Mohammadi Ziabari

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Information Systems) /
CiteScore - Q2 (Information Systems)
