

Special Issue

Digital Forensic Investigation and Incident Response

Message from the Guest Editors

Digital forensics investigation and incident response play a critical role in addressing the evolving landscape of cyber threats. As technology advances, so do the methods and strategies employed by malicious actors. This Special Issue aims to showcase the latest research and advancements in digital forensics and incident response, providing a platform for researchers and practitioners to exchange knowledge and ideas. Topics of interest: We invite submissions in, but not limited to, the following areas:

- Digital Forensics Techniques:
- Incident Response Strategies:
- Forensic Challenges in Emerging Technologies:
- Case Studies and Best Practices:

Guest Editors

Prof. Dr. Cihan Varol

Dr. Amar Rasheed

Dr. Umit Karabiyik

Dr. Narasimha Shashidhar

Prof. Dr. Rui Zhang

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Information Systems) /
CiteScore - Q2 (Information Systems)
