

Special Issue

Emerging Research in Artificial Intelligence for Code Analysis and Security

Message from the Guest Editors

The Special Issue "Emerging Research in Artificial Intelligence for Code Analysis and Security" is Online! This Special Issue focuses on the convergence of AI and code analysis, highlighting emerging research at the intersection of these fields. From enhancing cybersecurity to optimizing code through machine learning, it explores how AI is transforming the way we understand, analyze, and secure software.

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Information Systems) /
CiteScore - Q2 (Information Systems)
