

Special Issue

Governance of Artificial Intelligence

Message from the Guest Editor

The purpose of this Special Issue is to present the latest developments in AI governance. Investigators in the field are invited to contribute their original, unpublished works. Both research and review papers are welcome. Topics of interest include but are not limited to:

- Governance issues related to near-term, medium-term, and/or long-term AI
- Governance of AI by governments, corporations, universities, and other relevant institutions
- Evaluations of opportunities to improve AI governance
- Ethical principles underlying AI governance, and the practical implementation of these principles
- Management of risks created by AI systems
- Critical evaluation of existing AI governance initiatives
- Proposals for new AI governance concepts and activities
- Reviews of AI governance literature and articulation of directions for future research
- Lessons for AI governance from other domains of governance and/or other fields of study

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:

CiteScore - Q2 (Information Systems)
