

Special Issue

Information Visualization Theory and Applications (IVAPP 2020)

Message from the Guest Editors

This Special Issue will feature a selection of carefully revised and extended papers to be presented at the 11th International Conference on Information Visualization Theory and Applications, to be held in Valletta, 27–29 Feb. 2020. IVAPP aims to become a major point of contact between researchers, engineers, and practitioners in information visualization. The conference covers a broad range of topics related to information visualization. Papers describing advanced prototypes, systems, tools, and techniques as well as general survey papers indicating future directions are also encouraged. Selected papers are invited to be submitted as extended versions to this Special Issue of the journal *Information* after the conference. The conference paper should be cited and noted on the first page of the paper; authors are asked to disclose that it is a conference paper in their cover letter and include a statement on what has been changed compared to the original conference paper. Each submission should contain at least 50% new material. All papers will undergo our standard peer-review procedure.

Guest Editors

Prof. Dr. Andreas Kerren

Department of Computer Science, Linnaeus University, Vaxjo, Sweden

Prof. Dr. Christophe Hurter

Interactive Data Visualization group, the French Civil Aviation University (ENAC), Toulouse, France

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Information Systems) /
CiteScore - Q2 (Information Systems)
