Special Issue

Advanced Topics in Systems Safety and Security

Message from the Guest Editors

This Special Issue will present high-quality papers on systems safety and security. It will be focused especially on extended versions of selected papers presented at the International Workshop on Systems Safety and Security—IWSSS, but other valuable and relevant contributions in this field could be submitted. The International Workshop on Systems Safety and Security was initiated in 2013 by an enthusiastic researchers' team. IWSSS 2019 is the 7th edition of the workshop, which has proven to be a prestigious scientific event. The previous editions of our workshop brought together renowned professors and researchers, practitioners, and implementers from industry, young scientists and specialists from all over the world, making IWSSS a real bridge between academia and industry. We warmly invite researchers to submit their contributions to this Special Issue. Authors of invited papers should be aware that the final submitted manuscript must provide a minimum of 50% new content.

Guest Editors

Dr. Emil Pricop

Dr. Grigore Stamatescu

Dr. Jaouhar Fattahi

Deadline for manuscript submissions

closed (30 September 2020)

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo
School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:
free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:
indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:
JCR - Q2 (Computer Science, Information Systems) / CiteScore - Q2 (Information Systems)
