Special Issue

Systems Safety and Security—Challenges and Trends

Message from the Guest Editors

This Special Issue will present high-quality papers on system safety and security—two topics of growing importance in the global political, military and economic context. We invite all the researchers to submit their contribution on increasing the security and safety of the systems that are key components of critical infrastructures, such as energy production and distribution, water and wastewater management, defense, healthcare providers, transportation systems and communications. This Special Issue will comprise mainly extended versions of selected papers that were presented at the International Workshop on Systems Safety and Security—IWSSS (https://iwsss.org), but other valuable and relevant contributions in this field could also be submitted. Authors of invited papers should be aware that the final submitted manuscript must provide a minimum of 50% new content.

Guest Editors

Dr. Emil Pricop

Dr. Grigore Stamatescu

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo
School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:
free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:
indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:
JCR - Q2 (Computer Science, Information Systems) / CiteScore - Q2 (Information Systems)
