

Special Issue

Emerging Topics in Industrial Control Systems and SCADA Cyber Security

Message from the Guest Editors

The Special Issue "Emerging Topics in Industrial Control Systems and SCADA Cyber Security" is OPEN! The 7th International Symposium for ICS & SCADA Cyber Security brought together researchers with an interest in the security of industrial control systems in the light of their increasing exposure to cyberspace. The topics of interests were broad, ranging from security for hardware/firmware used in industrial control systems to system aspects of ICS, such as secure architectures and vulnerability screening, as well as human aspects of cyber security, such as behaviour modelling and training. ICS-CSR is a research conference that was created to share high-quality academic research on any of the specified themes and topics of interest. We welcome original contributions that present innovative ideas, proof of concept works, use cases, and results from a variety of domains with the aim of enhancing infrastructure security.

Guest Editors

Prof. Dr. Leandros Maglaras

Prof. Dr. Helge Janicke

Dr. Richard Smith

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:

CiteScore - Q2 (Information Systems)
