

Special Issue

Graph Neural Networks and Transformers for Intelligent Data-Driven Systems

Message from the Guest Editor

This Special Issue invites original research articles on Graph Neural Networks (GNNs) and Transformers for Intelligent Data-Driven Systems. We aim to showcase innovative research advancing theoretical foundations, methodologies, and applications of GNNs and Transformers in areas such as natural language processing, graph-based reasoning, predictive modeling, and other data-driven intelligent systems. The goal is to foster interdisciplinary collaboration, promote knowledge transfer, and highlight technological breakthroughs in these rapidly evolving fields. We welcome high-quality, original submissions that have not been previously published or are under consideration elsewhere. Contributions should provide novel insights, rigorous methodologies, or impactful applications of GNNs and Transformers.

Guest Editor

Dr. Xiaodi Huang

School of Computing, Mathematics, and Engineering, Charles Sturt University, Albury, NSW 2640, Australia

Deadline for manuscript submissions

31 December 2026

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Information Systems) /
CiteScore - Q2 (Information Systems)
