

Special Issue

Emerging Research in Computational Creativity and Creative Robotics

Message from the Guest Editors

This Special Issue aims to bring together cutting-edge research and practical developments that explore the theoretical, technical, and applied dimensions of computational creativity and creative robotics. We invite contributions that investigate or demonstrate how artificial and robotic systems can model, support, engage in, or enhance creativity.

Guest Editors

Dr. Sanaz Nikghadam-Hojjati

Prof. Dr. José Barata

Dr. Eda Marchetti

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Information Systems) /
CiteScore - Q2 (Information Systems)
