

Special Issue

Advanced Technologies in Intelligent Detection of Biological Information

Message from the Guest Editors

This Special Issue of *Information* will provide a current overview of the most significant research carried out in the field of advanced technologies in biological information intelligent detection. Scientists and researchers from all over the world are invited to submit original research and review articles related to, but not limited to, the following topics:

- Biological information detection or measurement;
- Intelligent detection;
- Advanced information assessment;
- Intelligent signal processing;
- Other related intelligent detection theory of technology in the biological information acquisition.

Guest Editors

Dr. Jie Liu

Dr. Shanmei Liu

Dr. Fang Yang

Prof. Dr. Khalid Sayood

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Information Systems) /
CiteScore - Q2 (Information Systems)
