Special Issue

Artificial Intelligence in Sustainable Supply Chains: Innovations, Applications, and Future Directions

Message from the Guest Editor

The Special Issue "Artificial Intelligence in Sustainable" Supply Chains: Innovations, Applications, and Future Directions" is Online! We are pleased to announce that this Special Issue of the MDPI journal *Information* is currently accepting articles on "Artificial Intelligence in Sustainable Supply Chains: Innovations, Applications, and Future Directions". Reducing carbon footprints, managing resource scarcity, ensuring sustainable procurement, and minimizing waste are just a few of the major concerns regarding sustainable supply chains. With the global economy becoming more integrated and dynamic, artificial intelligence (AI) is becoming crucial in tackling these issues. Al-driven predictive analytics, real-time decision-making, and enhanced transparency are revolutionizing supply chain planning and management.

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Information Systems) / CiteScore - Q2 (Information Systems)
