

Special Issue

Intelligent Information Technology, 2nd Edition

Message from the Guest Editor

This Special Issue is the second edition of the Special Issue entitled “Intelligent Information Technology”. It aims to explore recent advances and emerging trends in intelligent information technologies and their wide-ranging applications. It serves as a platform for researchers, engineers, and practitioners from academia, industry, and government to share innovative ideas, cutting-edge research, and practical solutions that address the challenges and opportunities in this rapidly evolving field. We welcome high-quality submissions that present original research. Topics of interest include, but are not limited to, intelligent information processing, data-driven applications, AI-enhanced communication systems, and next-generation computing technologies.

Guest Editor

Prof. Dr. Chuan-Ming Liu

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Information Systems) /
CiteScore - Q2 (Information Systems)
