Special Issue

Surveys in Information Systems and Applications

Message from the Guest Editors

The Special Issue "Surveys in Information Systems and Applications" is OPEN! *Information* is launching a new editorial initiative. In the diverse and complex field of computing, locating comprehensive and trustworthy overviews of the latest advancements and research trends within specific domains is challenging. To address this issue, we plan to introduce 'survey papers'. Each paper is welcome to explore any subfield that may interest the *Information* readership. The prepared papers are expected to provide a concise historical context of the progress made thus far, coupled with an overview of current advancements, all substantiated by a thorough bibliography. Contributions should outline the most pressing research questions of the moment and the most promising avenues for pursuing these inquiries. Additionally, recounting 'unsuccessful paths'—as cautionary tales for upcoming researchers—holds its own merit.

Guest Editors

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo
School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:
free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:
indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:
JCR - Q2 (Computer Science, Information Systems) / CiteScore - Q2 (Information Systems)
