Design Automation, Computer Engineering, Computer Networks and Social Media (SEEDA-CECNSM 2021)

Message from the Guest Editors

The 6th South-East Europe Design Automation, Computer Engineering, Computer Networks and Social Media Conference (SEEDA-CECNSM 2021) will take place in Preveza, Greece, from 24 to 26 September 2021. The SEEDA-CECNSM technical program includes all aspects of Information Science and Technology. This Special Issue aims at publishing extended versions of papers in the area of Information Technology from the conference. Potential topics include (but are not limited to) the following:

- Artificial intelligence and applications;
- CAD tools and algorithms;
- Numerical and scientific computation;
- Embedded systems and applications;
- Social networks and information technologies in education;
- Digital media technologies;
- Information technologies in e-Commerce, e-Services, and e-Government;
- Industrial informatics;
- Open-source tools;
- Smart and sociable ecosystems.

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.
