

Special Issue

ICT in Smart Digital Ecosystems and Applications

Message from the Guest Editors

The contributions for this Special Issue aim to analyse the challenges of emerging smart digital ecosystems and advanced applications. The papers propose solutions from the ICT field, including smart communities, to highlight possible advances in addressing the challenges of digital ecosystems in the emerging knowledge and digital society. The papers from all ICT fields or domains offer a multidisciplinary approach to help decision makers better understand the opportunities offered by digital ecosystems and advanced applications.

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Information Systems) /
CiteScore - Q2 (Information Systems)
