

Special Issue

Quantum Information Processing and Machine Learning

Message from the Guest Editors

The Special Issue "Quantum Information Processing and Machine Learning" is OPEN! This Special Issue aims to curate original research and review articles from academia and industry-relevant researchers in the fields of quantum machine learning, quantum information processing, machine learning, and deep learning, image processing, computer vision, natural language processing, and recommendation systems. Topics of interest include but are not limited to:

- Quantum machine learning;
- Quantum computing;
- Quantum cryptography and communications;
- Quantum algorithms;
- Machine learning;
- Deep learning;
- Image processing;
- Computer vision;
- Natural language processing;
- Recommendations system.

Guest Editors

Dr. Wenbin Yu

Dr. Yadang Chen

Dr. Chengjun Zhang

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Information Systems) /
CiteScore - Q2 (Information Systems)
