Special Issue

New Information Communication Technologies in the Digital Era

Message from the Guest Editors

The Special Issue "New Information Communication Technologies in the Digital Era" is OPEN! You are invited to submit contributions to this Special Issue of *Information*, which examines multiple aspects of the deployment of new technologies in the digital era, particularly in the context of business operations. This Special Issue welcomes additions to this body of literature, including but not limited to:

- studies that identify and examine the key issues involved in the successful deployment of these technologies in industry;
- studies on integration issues and the consequences for corporate data and information reporting;
- studies that examine the implications of Internet of Things and data analytics initiatives, including discussion of cloud and edge computing combinations and trade-offs;
- studies that investigate recent case examples of technology implementation and provide guidance for practitioners and professionals.

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo
School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:
free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:
indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:
JCR - Q2 (Computer Science, Information Systems) / CiteScore - Q2 (Information Systems)
