

Special Issue

Digital Systems in Higher Education

Message from the Guest Editor

This Special Issue of Information focuses on the integration of innovative teaching methodologies and tools in digital systems education, aiming to inspire novel approaches and share best practices. We invite contributions that highlight advancements in curriculum design, pedagogical strategies, and practical training for digital systems. Topics of interest include, but are not limited to, FPGA-based education, reconfigurable computing, digital signal processing laboratories, simulation tools, and project-based learning in digital design. Submissions addressing the use of artificial intelligence (AI) to enhance learning experiences, as well as studies exploring interdisciplinary approaches, industry collaborations, and the impact of emerging technologies, are particularly encouraged.

Guest Editor

Dr. Iouliia Skliarova

Department of Electronics, Telecommunications and Informatics, IEETA, University of Aveiro, 3810-193 Aveiro, Portugal

Deadline for manuscript submissions

31 July 2026

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Information Systems) /
CiteScore - Q2 (Information Systems)
