

## Special Issue

# Data-Driven Modeling, Control, Optimization, and Decision-Making in Intelligent Systems

### Message from the Guest Editors

We are pleased to announce a Special Issue, titled “Data-Driven Modeling, Control, Optimization, and Decision-Making in Intelligent Systems”. This Special Issue will highlight the latest advancements in and applications of data-driven techniques in intelligent systems. As modern technology continues to evolve, integrating data-driven approaches has become pivotal to enhancing intelligent systems' modeling, control, optimization, and decision-making processes across various domains. We invite original research articles, reviews, and case studies that contribute to this dynamic and rapidly growing field. The topics include, but are not limited to:

- Data-Driven Modeling Techniques
- Control Systems
- Optimization
- Decision-Making
- Machine Learning Applications
- Big Data Analytics
- Predictive Modeling
- Cyber-Physical Systems

---

### Guest Editors

Prof. Dr. Chien-Yi Huang

Department of Industrial Engineering and Management, National Taipei University of Technology, Taipei 106, Taiwan

Dr. Amirhossein Nafei

Department of Industrial Engineering and Management, National Taipei University of Technology, Taipei 106, Taiwan

---

### Deadline for manuscript submissions

closed (30 June 2025)

## About the Journal

### Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

*Information* is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

---

### Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

#### Journal Rank:

JCR - Q2 (Computer Science, Information Systems) /  
CiteScore - Q2 (Information Systems)
