

Topical Collection

Augmented Reality Technologies, Systems and Applications

Message from the Collection Editors

The Topical Collection "Augmented Reality Technologies, Systems and Applications" is OPEN! The purpose of this Special Issue is to discuss key issues, approaches, ideas, open problems, affordances, innovative applications and trends in augmented reality, in the areas of medicine, tourism, cultural heritage, arts, education, entertainment, and industrial applications. We encourage authors to submit original research articles, case studies, reviews, prototypes, proofs of concept, theoretical and critical perspectives, and viewpoint articles on but not limited to the following topics:

- AR development frameworks;
- AR technologies;
- AR collaborative applications;
- Personalized AR systems;
- AR accessibility, usability and ergonomics;
- AR authoring tools;
- Co-creation and co-design of AR applications and content for AR applications;
- AR Applications in the fields of healthcare, virtual travel, cultural heritage, arts, education, industrial, e-sports, games, etc.;
- Social aspects of AR applications.

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Information Systems) /
CiteScore - Q2 (Information Systems)
