

## Special Issue

# Computer, Software Engineering and Applications

### Message from the Guest Editor

*Information* proposes a Special Issue on “The 2021 3rd International Conference on Computer, Software Engineering and Applications”. This Special Issue intends to contain a selection of carefully revised and extended papers to be presented at the CSEA 2021, to be held in Wuhan, China, 27–29 November 2021. CSEA 2021 aims to provide an excellent international forum for academia, industry, and government to discuss research results and advancements, emerging challenges, and future trends in computer and software technologies and applications. Contributors are invited to submit original papers for publication in this Special Issue. Please follow the instructions available here regarding the number of pages and page formatting. Research papers should reach us by 31 May 2022 at the latest.

### Guest Editor

Prof. Dr. Yongsheng Ma

College of Engineering, Southern University of Science and Technology, Shenzhen, China

## About the Journal

### Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

*Information* is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

#### Journal Rank:

JCR - Q2 (Computer Science, Information Systems) /  
CiteScore - Q2 (Information Systems)
