

## Special Issue

# Fundamental Problems of Information Studies

### Message from the Guest Editor

The Special Issue "Fundamental Problems of Information Studies" has been EXTENDED! The goal of the Special Issue is to present recent research aimed at solving the fundamental problems of information studies. We are soliciting papers that advance our knowledge and assist us in evolving our current understanding of information technologies. Submitted manuscripts should not have been published previously. Our goal is to make the published Special Issue of the journal *Information* the starting point for next-generation computer scientists and information technology professionals to evolve our understanding and application of information processing structures.

## About the Journal

### Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

*Information* is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

---

### Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

#### Journal Rank:

JCR - Q2 (Computer Science, Information Systems) /  
CiteScore - Q2 (Information Systems)
