# Special Issues on Languages Processing

## Message from the Guest Editors

We often use languages. First, to communicate between ourselves. Later, to communicate with computers. In addition, more recently, with the advent of networks, we found a way to make computers communicate among themselves. All these different forms of communication use languages, different languages, but languages that still share many similarities. In this Special Issue, we will publish an extended version of best papers selected from Symposium on Languages, Applications, and Technologies (SLATE17). In this Special Issue, the three types of processing languages are addressed: Human-Human (HHL), Human-Computer (HCL) and Computer-Computer Languages (CCL).

## **About the Journal**

## Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

#### Editor-in-Chief

## Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

#### **Author Benefits**

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### **High Visibility:**

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

### Journal Rank:

JCR - Q2 (Computer Science, Information Systems) / CiteScore - Q2 (Information Systems)
