

Special Issue

Mobile Systems, Mobile Networks and Mobile Cloud: Security, Privacy and Digital Forensics

Message from the Guest Editors

The use of smartphones and mobile devices has been an indispensable part of our everyday life and work. With personal financial and medical information and job-related data being processed on mobile systems, mobile networks, and mobile cloud, it is critically important that the development and advancement of secure mobile operating systems, secure mobile cloud and applications, secure mobile devices and cellular networks keep up with the ever-growing smartphone usage. The scope of this Special Issue encompasses the security, privacy, and digital forensics of mobile systems, mobile networks and mobile cloud, including but not limited to Android, iOS and Windows Mobile operating systems, mobile device, systems and applications, the modelling, design and testing of mobile system, networks and cloud with security and privacy in mind, secure mobile methodologies and algorithms, and secure mobile applications as well as cellular networks.

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Information Systems) /
CiteScore - Q2 (Information Systems)
