

Special Issue

Philosophy of Information: Views and Reflections on the Work of Luciano Floridi

Message from the Guest Editor

Luciano Floridi has devoted his work to the development and dissemination of the notion of Philosophy of Information. His work is clearly of philosophical tone, yet it has the potential of immediate and profound influence on scientific and technological developments related to Information and Communications Technology as a whole. In the present special issue of Information we explore how recent results by Luciano Floridi relate to ongoing research activities in ICT. Prof. Dr. Flávio Soares Corrêa da Silva

Guest Editor

Prof. Dr. Flávio Soares Corrêa Da Silva
University of Sao Paulo, Brazil

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Information Systems) /
CiteScore - Q2 (Information Systems)
