

Special Issue

IoT-Based Systems for Safe and Secure Smart Cities

Message from the Guest Editors

This Special Issue aims to provide a new outlook on the models, methods, innovative technologies, and cutting-edge implementations for safe and secure cities. These include applications such as monitoring systems based on sensor, drone, and/or satellite data or data-intensive urban platforms, and approaches and techniques for safety analysis and assessment. It solicits research papers, experience-based papers, and comprehensive literature reviews and surveys on approaches for smart city safety and security.

Guest Editors

Dr. Maria Luisa Villani

Dr. Rita Zgheib

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Information Systems) /
CiteScore - Q2 (Information Systems)
