

Special Issue

Serious Games and Applications for Health (SeGAH 2017)

Message from the Guest Editors

The overall objectives of [SeGAH 2017](#) are the discussion and sharing of knowledge, experiences and scientific and technical results, related to state-of-the-art solutions, technologies and applications of serious games in health and healthcare. We believe that [SeGAH](#) which will be held in Perth, Australia, from 2–4 April, 2017, will further enlighten the audience of this conference which will effectively promote submission of more stimulating articles. Authors of [SeGAH 2017](#) proceedings papers are therefore invited to submit extended versions of their papers with new input/angles to the Special Issue “Serious Games and Applications for Health” of the journal *Information—Open Access Information Science Journal* (I-OAISJ). The final submitted manuscript must provide a minimum of 50% new content and not exceed 30% copy/paste from the proceedings paper.

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.
