Special Issue

Wireless Communications and Network Security

Message from the Guest Editor

This Special Issue will present extended versions of selected papers presented at the 2022 4th Asia Pacific Information Technology Conference (APIT 2022). The APIT conference is a premier forum for exchanging information and research results on Information Technology. The conference will bring together researchers and practitioners from both academia as well as industry to meet and share cutting-edge developments in the field. As its name indicates, the conference is dedicated to Information Technology in its entirety. However, for this Special Issue of APIT 2022, we would like to put an emphasis on wireless communications and security, as it has been used widely in our daily life and the development of the society and is considered one of the essential techniques at the moment. Authors of invited papers should be aware that the final submitted manuscript must provide a minimum of 50% new content and not exceed 30% copy/paste from the proceedings paper.

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo
School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:
free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:
indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:
JCR - Q2 (Computer Science, Information Systems) / CiteScore - Q2 (Information Systems)
