

Sustainable Practices in Bridge Construction

Guest Editors:

Dr. Vanni Nicoletti

Department of Construction, Civil Engineering and Architecture (DICEA), Università Politecnica delle Marche, Ancona, Italy

Dr. José Campos Matos

Civil Engineering Department, School of Engineering, Minho University, Campus de Azurem, 4800-058 Guimaraes, Portugal

Dr. Jakub Kralovanec

Department of Structures and Bridges, Faculty of Civil Engineering, University of Žilina, Univerzitná 8215/1, 010 26 Žilina, Slovakia

Deadline for manuscript submissions:

closed (15 November 2024)

Message from the Guest Editors

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Eco-Friendly Materials: the use of sustainable and recyclable materials in bridge construction.
- Energy-Efficient Design: the incorporation of design elements to optimize energy consumption and reduce environmental impacts.
- Local Sourcing: preferences for locally sourced materials to minimize transportation-related emissions and support regional economies.
- Innovative Construction Techniques: the adoption of advanced construction methods that reduce environmental degradation and resource consumption.
- Waste Management: the implementation of efficient waste-management strategies to minimize the environmental footprint of construction activities.
- Social Impact Assessment: consideration of the broader impacts on local communities, including stakeholder engagement and safety prioritization.
- Life Cycle Assessment: the evaluation of the environmental impact of a bridge over its entire life cycle, from construction to decommissioning.

Message from the Editor-in-Chief

You are invited to contribute a research article, review or short communication for consideration and publication in *Infrastructures* (ISSN 2412-3811). There is no restriction on the length of the papers. *Infrastructures* is published in open access format. The scientific community and general public have unlimited free access to the content as soon as it is published. *Infrastructures* is supported by the authors by the payment of article processing charges for accepted manuscripts. Please consider *Infrastructures* as an exceptional opportunity to publish your work.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), Inspec, and other databases.

Journal Rank: JCR - Q2 (Construction and Building Technology) / CiteScore - Q1 (Building and Construction)
