Message from the Guest Editors

Dear Colleagues,

The 4th International Conference on Transportation Infrastructure (ICTI 2018) focuses on developing transportation infrastructure, incorporating infrastructure design, construction, and maintenance and rehabilitation. The availability of effective and efficient transportation infrastructure in the developing world is of utmost importance to support economic and social development. Adequate infrastructure supports all other social and economic activities. It is the goal of an infrastructure engineer to ensure that new infrastructure is well designed and constructed, and existing infrastructure is constantly monitored and well-maintained to preserve the investments made into such infrastructure and optimize the benefits to society.

ICTI2018 focuses on such developments to ensure that new knowledge is gathered and provided in such a format that this new knowledge can support further improvements in infrastructure provision and management. This volume thus contains a selection of the best papers at the ICTI2018 conference that describes novel materials and techniques, improved methodologies, and case studies highlighting novel outcomes.

Message from the Editor-in-Chief

You are invited to contribute a research article, review or short communication for consideration and publication in *Infrastructures* (ISSN 2412-3811). There is no restriction on the length of the papers. *Infrastructures* is published in open access format. The scientific community and general public have unlimited free access to the content as soon as it is published. *Infrastructures* is supported by the authors by the payment of article processing charges for accepted manuscripts. Please consider *Infrastructures* as an exceptional opportunity to publish your work.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), Inspec, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Civil*) / CiteScore - Q1 (Building and Construction)
