Ultra-High Performance Concrete (UHPC)

Guest Editor:

Prof. Dr. Dong Joo Kim

Department of Civil and Environmental Engineering, SEJONG University, 209, Neungdong-ro, Gwangjin-gu, Seoul 05006, Korea

Deadline for manuscript submissions: closed (31 December 2021)

Message from the Guest Editor

Dear Colleagues,

Much research has been conducted on the development, characterization. and application of ultra-highperformance concretes (UHPCs) during the last decade. UHPCs are generally characterized by extremely high compressive strength of more than 150 MPa, high tensile strength exceeding 15 MPa, and tensile strain capacity higher than 0.5%. For popular practical application of UHPCs, it is now urgent to develop a suitable classification system for various UHPCs and design code for the structures made by UHPCs. This Special Issue will include broad issues related to the material and mechanical response of UHPCs and their applications.

Editor-in-Chief

Dr. Pedro Arias-Sánchez

Applied Geotechnologies Group, Department of Natural Resources and Environmental Engineering, School of Mining Engineering, University of Vigo, 36310 Vigo, Spain

Message from the Editor-in-Chief

You are invited to contribute a research article, review or short communication for consideration and publication in *Infrastructures* (ISSN 2412-3811). There is no restriction on the length of the papers. *Infrastructures* is published in open access format. The scientific community and general public have unlimited free access to the content as soon as it is published. *Infrastructures* is supported by the authors by the payment of article processing charges for accepted manuscripts. Please consider *Infrastructures* as an exceptional opportunity to publish your work.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), Inspec,

and other databases.

Journal Rank: JCR - Q2 (Engineering, Civil) / CiteScore - Q1 (Building and Construction)
